1. Introduction

In September 2018, a new procedure for submitting an electronic application for licences for the sale of tobacco, tobacco products and related products was launched on the SPOT Slovenian Business Point portal.

Legal framework:

- [Restriction on the Use of Tobacco Products and Related Products Act \(Official Gazette of the Republic of Slovenia \[Uradni list RS\], Nos 9/17 and 29/17, hereinafter: ZOUTPI\)](#) and
- [Rules on licences for the sale of tobacco, tobacco products and related products](#) (Official Gazette of the Republic of Slovenia, No 53/18).

In accordance with the ZOUTPI, tobacco, tobacco products and related products may be sold by a person who has a licence to conduct sales in the business premises indicated in the authorisation.

The licence is issued for individual business premises where invoices for the supply of tobacco, tobacco products and related products are issued permanently, occasionally or temporarily, and which are associated with a sole trader or a legal entity engaged in the sale of such products on the premises.

The specific products for the sale of which a licence is required are defined in Article 3 of the ZOUTPI, namely:

- Tobacco shall mean leaves and other natural processed or unprocessed parts of tobacco plants, including expanded and reconstituted tobacco.
 - Pipe tobacco shall mean tobacco that can be consumed via a combustion process and is exclusively intended for use in a pipe.
 - Roll-your-own tobacco shall mean cut rag tobacco, which is further defined in paragraph three of Article 84 of the Excise Duty Act.
- Tobacco products shall mean products that can be consumed and that consist, even partly, of tobacco, whether genetically modified or not.
 - Nasal tobacco shall mean a smokeless tobacco product that can be inhaled through the nose.
 - Waterpipe tobacco shall mean a tobacco product that can be consumed via a waterpipe. For the purpose of the ZOUTPI, waterpipe tobacco shall be deemed to be a tobacco product for smoking. If a product can be used both via waterpipes and as roll-your-own tobacco, it shall be deemed to be roll-your-own tobacco.
 - Chewing tobacco shall mean a smokeless tobacco product intended exclusively for the purpose of chewing. Smokeless tobacco product shall mean a tobacco product that does not involve a combustion process, including chewing tobacco, nasal tobacco and tobacco for oral use.
- Related products shall mean electronic cigarettes and nicotine-free electronic cigarettes, herbal products for smoking and novel tobacco products.

- Electronic cigarette shall mean a product that can be used for the consumption of nicotine-containing vapour via a mouth piece, or any component of this product, including a cartridge, a tank and the device without cartridge or tank. Electronic cigarettes can be disposable or refillable with a refill container and a tank, or rechargeable with single use cartridges. Refill container shall mean a receptacle that contains a nicotine-containing liquid, which can be used to refill an electronic cigarette.
- Herbal product for smoking shall mean a product based on plants, herbs or fruits which contains no tobacco and that can be consumed via a combustion process.
- Novel tobacco product shall mean a tobacco product which:
 - does not fall into any of the following categories: cigarettes, roll-your-own tobacco, pipe tobacco, waterpipe tobacco, cigars, cigarillos, chewing tobacco, nasal tobacco or tobacco for oral use; and
 - has been placed on the market after 19 May 2014.

The applicant may file the application for several business units at the same time, indicating the registration number and address of each business unit. When submitting an application, the applicant selects the type of products for the sale of which he/she wishes to obtain a licence (tobacco, tobacco products, related products or various combinations of those products).

The licence is valid for five years from the date of issue, with a possibility of extension, for five years each time.

The competent authority for issuing the licence is the Ministry of Health.

The licence is not transferable and shall be prominently displayed in the business premises.

The licence is subject to an administrative fee, which, in accordance with the Administrative Fees Act (Official Gazette of the Republic of Slovenia, Nos 106/10 – official consolidated text, 14/15 – ZUUJFO, 84/15 – ZZelP-J, 32/16 and 30/18 – ZKZaš), amounts to EUR 18.10 per business unit.

Steps of the procedure and timeframe for completion: - The applicant submits the application and pays the administrative fee, both electronically. - The competent authority reviews the application and invites the applicant to complete it (5 days). - The applicant completes the application (8 days). - The competent authority issues the licence.

Legal protection: Administrative dispute against a decision rejecting the application for a permit.

Useful information:

The condition for the extension of the licence is that at the moment of submission of the application no ban on sale of tobacco, tobacco and related products has been imposed on the holder of the licence for the business unit for which the application for extension has been submitted.

The condition for reissuing the licence is that at the moment of submission of the application the business unit for which the application for reissuing the licence has been submitted is not subject to a prohibition on the reissuance of the licence.

In the event of infringement, established by a final decision, of the provisions of Article 29 or 30 of the ZOUTPI (Advertising and Ban on sale), the offender's sales licence will be withdrawn for a limited period and, in the event of repeated infringements, permanently.
